Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Last year Jeff Johnson, a KFP logging engineer observed
spawning Pink & chum on site at bridge crossing of road.
Juvenile coho & trout are in stream below bridge.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
